## DEVA MATHA CENTRAL SCHOOL SHINES AT EDU-EXCELLENCE SUMMIT 2021

The prestigious 'Edu-Excellence Summit 2021' – based on the theme- Managing Technology, Business and Innovation was held on 26th December, 2021. The Summit was attended by Educational Leaders, Influencers, School Owners, School Principals from different educational institutions across Southern India. Eminent speakers from the Education Industry enriched the leaders on the emphatic theme- 'Emerging Future Trends in Education'.

THE JURY MEMBERS OF CED AWARD COUNCIL SELECTED DMCS – VIDYARANYAPURA AS ONE OF THE BEST TRANSFORMED SCHOOLS UNDER THE CATEGORY OF GREEN SCHOOL INITIATIVES AWARDS- 2021. THE JURY MEMBERS OF CED AWARD COUNCIL ALSO SELECTED DMCS – BANASWADI FOR 'ACADEMIC EXCELLENCE INNOVATION AWARD' FOR THE YEAR 2021.

The entire DMCS Fraternity takes immense, pride and delight in welcoming and embracing this award. The DMCS Management is indeed ecstatic to share this wonderful news with each of you.

**Dr. Joseph V.G. Honorary Consul General for the Republic of Maldives in Bangalore and Chancellor, Garden City University** remarks – "We are very elated and satisfied to see the exceptional journey trodden by DMCS. The school has worked on quality deliverables and ensured affordable education for young aspirants. I congratulate Staff and Student members of DMCS for following the correct path and roadmap towards achieving benchmarks and maintaining high standards of excellence. Best Wishes !"

# MERRY CHRISTMAS *Editorial*

The word 'Christmas' truly elates my heart. Christmas is a well-known festival celebrated across the world with great cheerfulness and happiness. It is considered as the birth day of Jesus Christ and is a very special day for people across the globe. The spirit of Christmas arrives well in advance with the onset of the month of December. The celebrations starts on the 24th of December, every year, which is called as the Christmas Eve. On 25th of December people adorn themselves with their best attires and visit the church to offer their special prayers. The day is marked with scrumptious food and delicacies. How can we not talk about Santa Claus when it comes to Christmas ! Every year, I also wait for my gifts that have been bestowed on me by Dear Santa !! Just to let you know, Santa Claus—also known as Saint Nicholas or Kris Kringle—has a long legendary history associated with the Christmas tradition.

I got my new Santa Cap ! It looked beautiful with the red and white colours. I used it while singing my Christmas songs and Carols. Christmas will always remain as a special, beloved festival for me.

**Merry Christmas to the entire DMCS Family !**

# DMCS INNOVATE 2021

Deva Matha Central School has always remained a connoisseur of innovative ideas. It has always been a hub of great intellect and exploring minds. In light of the same, DMCS Banaswadi presented a splendid Virtual Exhibition- INNOVATE 2021 on 30th November, 2021. The awe-inspiring exhibition was organised for DMCS students from Kindergarten to Grade XII. Students were cordially invited to submit their innovative projects and working models, duly applicable to their respective segments.

The response was staggering! We were indeed delighted to receive overwhelming submissions of creativity, craft and workmanship by the young geniuses at work. We were mesmerised to witness the talent pool of the DMCS students and the stupendous participation towards the enterprise. The working models and projects were conceptualised around an array of themes and concepts.

The Art and Craft submissions by the students were exemplary. They also came forward with many literary projects and models revolving around language and library, as concepts. The Science and Technology based projects and models were exquisite. A number of Mathematical Models were on display, putting the thinking cap on, for each of us. They showcased many elaborate, comprehensive and intricate designs with a lot of precision and craftsmanship. It was indeed delightful to appraise many Social Science projects centred around the concepts of Archaeological models and historical inputs. Each of these presentations were very articulate, corroborated massively with facts, figures, charts, collages etc.

Virtual Exhibition- INNOVATE 2021 has been a gigantic success. Its impact and imprint on student's intellectual abilities will be long lasting in many conceivable ways. It is another beautiful feather added to the DMCS cap of laurels and endeavours. We thank the entire DMCS Community of students, parents, faculty members for making INNOVATE 2021 so deeply memorable and successful.

# THE LEGENDARY SRINIVASA RAMANUJAN

I have always been very fond of Srinivasa Ramanujan. He is a legendary mathematician that India will always be proud of. He belonged to the state of Tamil Nadu and did not receive any formal education. He is world renowned for his mathematical concepts like- mathematical analysis, infinite series, continued fraction and number theory. It was Professor Hardy who was totally impressed by his genius and thereafter decided to invite Ramanujan to the prestigious Cambridge University. Ramanujan is known to have published many papers with many of his works also having been published in the journal of Indian Mathematical Society. He was the youngest Indian selected for "A Fellow of Royal Society" in 1918 for his investigation in Elliptic functions and the Theory of Number.

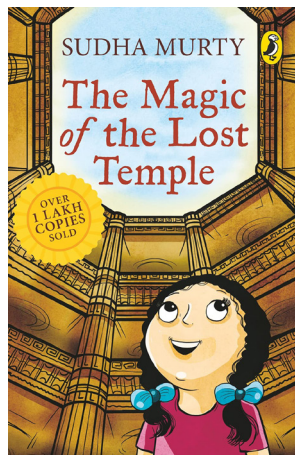

Ramanujan belonged to a very humble background and had seen many hardships in life. In spite of all the odds and obstacles he achieved such great feats in the field of Mathematics.

He will always be my role model and an inspiration for a lifetime.

## 'THE MAGIC OF LOST TEMPLE'- SUDHA MURTHY

'The Magic of Lost Temple' is a beautiful book written by Sudha Murthy. This story is about a girl named Noonie who is brave and adventurous. It describes her summer vacation which she spent at her Grandmother's place. Her mother had to go out for training in Delhi. At her grandmother's place she makes many friends - Mahadeva, Medha, Anand and Amit. She learns the new art of riding a bicycle. She was delighted to help her grandmother in making Mango Pappad. She sees a new born calf and also makes visits to her grandmother's garden. The garden was replete with a variety of Jasmine and Tulsi. She cherishes the time she enjoyed at the village wedding and swimming in a river. The most exciting part of the story was when she stumbled upon an ancient fabled stepwell ! The book is a masterpiece- so lucid, simple and yet so compelling.

I strongly recommend each of you to obtain a copy of the book for yourselves too. Happy Reading!

**"Books are the quietest and most constant of friends; they are the most accessible and wisest of counselors, and the most patient of teachers."** \_ Charles W. Eliot

## Life isn't meant to be easy, it is meant to be lived

I have always listened to my father teaching me the lesson- Life isn't meant to be easy, it is meant to be lived. Life brings with itself many difficulties. It is many a times unfair too. We may want something badly, but never get it. However, this doesn't mean we lose hope. Life is meant to be lived. We need to know the beautiful things life has given us. It has given us family, friends and a society to care for. We should enjoy every single day of being alive. We should live a life with no regrets. It is one life God has given us, we should value it and cherish the same.

# DMCS CHRISTMAS CELEBRATIONS

Christmas, the festival of joy, sharing and giving was celebrated with gaiety at DMCS Vidyaranyapura and Banaswadi.

At DMCS Vidyaranyapura, the Front Office and Portico wore a festive look with the lovely hand-crafted Christmas decorations of wreaths, flowers and lanterns amidst a snowy landscape.

The beautifully decorated Christmas tree, complete with decorations, gifts and merry Santa standing by was a sight to behold. It almost felt as if Santa Claus would any moment give his bell a shake, hoist his sack of goodies and presents and say, "Ho, Ho, Ho, Merry Christmas", and begin to give out gifts.

DMCS Vidyaranyapura showcased a fantastic virtual celebration for Christmas 2021. The children of KinderFun and of Std I sang carols and some of them were dressed up as Mother Mary & Joseph and the Angels. They also dressed up as a Christmas Tree and Santa Claus.

A video by the faculty of art and craft was also shared to demonstrate how to make your own Santa Claus for your Christmas decorations!

At DMCS Banaswadi, the virtual celebration for Christmas 2021 was euphoric. Kindergarten Students made the Christmas Celebrations indeed splendid! A beautiful Ramp Walk and Fashion Show by the little ones was a treat to the eyes. We also welcomed Santa Claus singing 'Jingle Bells' song and the

most awaited Snowman greeting the entire DMCS Community! Fancy Dress by the tiny tots dressed as Christmas Bells, Christmas Cake, Christmas Tree was lovely. A story telling session about the festival of Christmas and the glowing Christmas Crib was worth reminiscing. The Faculty Members left no stone unturned in making the celebrations complete. Christmas Carol Songs coupled with dance performances by teaching staff were other highlights of the day. Last but not the least, a presentation on Christmas Cake-Making was enjoyed and learnt by one and all. On behalf of the entire DMCS family we wish you all a Merry Christmas and a Happy New Year! May the immense love and goodwill Christmas brings with itself, touch each of our lives in its own special way.

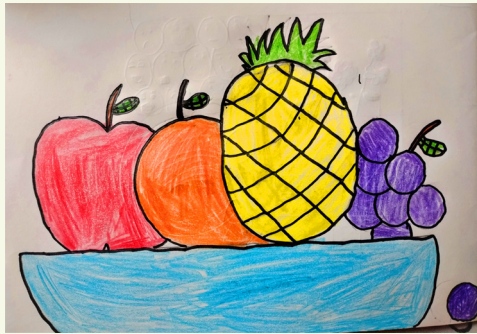

Merry Christmas !
